

METABOLIC & GLP-1

AOD-9604

AOD-9604 – 5 mg per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

CHEMICAL NAME	Anti-Obesity Drug 9604
SYNONYMS / ALIASES	AOD-9604; hGH fragment 176-191 analog; Tyr-hGH(177-191)
CAS NUMBER	221231-10-3
MOLECULAR FORMULA	C78H123N23O23S2
MOLECULAR WEIGHT	Approximately 1815.1 g/mol
AMINO ACID SEQUENCE	H-Tyr-Leu-Arg-Ile-Val-Gln-Cys-Arg-Ser-Val-Glu-Gly-Ser-Cys-Gly-Phe-OH (16 residues; intramolecular disulfide bridge between Cys7 and Cys14)
SOURCE	Synthetic (solid-phase peptide synthesis with oxidative disulfide formation)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized white to off-white powder
PURITY SPECIFICATION	>=99% by HPLC (confirm against batch COA)
CONTAINER	5 mg per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 14-28 days in bacteriostatic water
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	Disulfide bond integrity is critical; avoid reducing agents and prolonged exposure to elevated pH. Avoid repeated freeze-thaw cycles.

STRUCTURAL NOTES

AOD-9604 is a 16-amino-acid synthetic peptide based on the C-terminal region of human growth hormone (hGH residues 177-191), with an N-terminal tyrosine added to facilitate radiolabeling in early pharmacology studies. The peptide contains a single intramolecular disulfide bridge between the two cysteine residues. It is classified as a non-glucogenic hGH fragment analog and lacks the somatogenic regions of the parent hormone.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
