

RECOVERY & REPAIR

BPC-157 + TB-500 (Recovery Stack Blend)

BPC-157 + TB-500 – 20 mg per vial (blend) – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

PRODUCT TYPE	Two-component synthetic peptide blend
COMPONENT 1	BPC-157 — see bpc-157.md for full identification
COMPONENT 2	TB-500 (synthetic full-length Thymosin Beta-4, 43 residues) — see tb-500.md for full identification
BLEND RATIO	Typically 10 mg BPC-157 + 10 mg TB-500 per vial (1:1 by mass)
TOTAL PEPTIDE MASS	20 mg per vial
SOURCE	Synthetic; components co-lyophilized after separate solid-phase peptide synthesis

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized white to off-white powder
PURITY SPECIFICATION	Each component >=99% by HPLC (confirm against batch COA)
CONTAINER	20 mg total peptide per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 14-28 days in bacteriostatic water (limited by the less stable component)
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	TB-500 contains an oxidation-prone methionine - protect from prolonged air exposure. Avoid repeated freeze-thaw cycles.

STRUCTURAL NOTES

This blend co-formulates two distinct synthetic peptides commonly co-administered in research protocols on tissue repair. BPC-157 is a 15-amino-acid pentadecapeptide derived from a fragment of body protection compound. TB-500 is the commercial designation for synthetic full-length thymosin beta-4, a 43-amino-acid G-actin sequestering peptide. The two peptides are structurally unrelated; the blend is a mass-based co-lyophilization, not a covalent conjugate.

SELECTED PEER-REVIEWED REFERENCES

See the individual component data sheets ([BPC-157](#), [TB-500](#)) for primary references on each peptide.

References are provided for research background only. Cited publications do not constitute claims about the safety, efficacy, or intended use of this product.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
