

COGNITION & MOOD

Cerebrolysin

Cerebrolysin – 60 mg per vial – 6 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

CHEMICAL NAME	Cerebrolysin (porcine brain-derived peptidic preparation)
SYNONYMS / ALIASES	Cerebrolysin; FPF-1070; EVER Neuro Pharma Cerebrolysin
CAS NUMBER	12656-61-0
COMPOSITION	Standardized mixture of low-molecular-weight peptides (approximately 25%, MW under 10 kDa) and free amino acids (approximately 75%), derived from enzymatic hydrolysis of purified porcine brain protein
MOLECULAR FORMULA	Not applicable - heterogeneous biological preparation
MOLECULAR WEIGHT	All peptide components under 10 kDa by manufacturing specification
SOURCE	Porcine brain protein; enzymatic hydrolysis followed by ultrafiltration

PHYSICAL PROPERTIES

APPEARANCE	Clear pale-yellow aqueous solution (commercial preparation) or lyophilized powder (research presentations) - confirm with COA
PURITY SPECIFICATION	Standardized composition: peptides under 10 kDa, defined free amino acid profile
CONTAINER	60 mg total peptide / amino acid content per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	2-8 C, protect from light
RECONSTITUTED STORAGE	2-8 C, use promptly
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at 2-8 C
STABILITY NOTES ALIGNEDAMINOS.COM	Heterogeneous biological preparation; protect from elevated temperatures and avoid repeated freeze-thaw cycles.

STRUCTURAL NOTES

Cerebrolysin is a defined-process biological preparation rather than a single molecular entity. It is produced by enzymatic hydrolysis of purified porcine brain protein, followed by ultrafiltration to retain a fraction containing low-molecular-weight peptides (under 10 kDa) and free amino acids in approximately a 1:3 weight ratio. The peptide fraction includes a variety of short neuropeptide-like sequences; the amino acid fraction reflects the composition of the parent brain protein after proteolysis. Because Cerebrolysin is a mixture, batch identity and consistency are defined by manufacturing process and chromatographic fingerprint rather than by a single molecular formula.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
