

RECOVERY & REPAIR

GLOW (BPC-157 + GHK-Cu + TB-500)

GLOW – 70 mg per vial (blend) – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

PRODUCT TYPE	Three-component synthetic peptide blend
COMPONENT 1	BPC-157 — see bpc-157.md for full identification
COMPONENT 2	GHK-Cu (copper tripeptide-1) — see ghk-cu.md for full identification
COMPONENT 3	TB-500 (synthetic full-length Thymosin Beta-4, 43 residues) — see tb-500.md for full identification
BLEND MASS SPLIT	Typically 10 mg BPC-157 + 50 mg GHK-Cu + 10 mg TB-500 per vial
TOTAL PEPTIDE MASS	70 mg per vial
SOURCE	Synthetic; components co-lyophilized after separate solid-phase synthesis (BPC-157, TB-500) and complexation (GHK-Cu)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized powder with a faint blue tint (from the GHK-Cu component)
PURITY SPECIFICATION	Each component >=99% by HPLC (confirm against batch COA)
CONTAINER	70 mg total per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 14-28 days in bacteriostatic water (limited by the least stable component)
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	TB-500 contains an oxidation-prone methionine. GHK-Cu can release copper at low pH or in the presence of strong chelators. Avoid repeated freeze-thaw cycles.

STRUCTURAL NOTES

GLOW co-formulates three structurally unrelated synthetic peptides commonly used together in research on tissue repair and skin / connective-tissue biology. BPC-157 is a 15-amino-acid pentadecapeptide derived from a fragment of body protection compound. GHK-Cu is a copper-bound tripeptide (Gly-His-Lys) - copper tripeptide-1. TB-500 is synthetic full-length thymosin beta-4 (43 residues). The three peptides are physically co-lyophilized, not covalently linked.

SELECTED PEER-REVIEWED REFERENCES

See the individual component data sheets ([BPC-157](#), [GHK-Cu](#), [TB-500](#)) for primary references on each peptide.

References are provided for research background only. Cited publications do not constitute claims about the safety, efficacy, or intended use of this product.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
