

RECOVERY & REPAIR

KLOW (GLOW + KPV)

KLOW – 80 mg per vial (blend) – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

PRODUCT TYPE	Four-component synthetic peptide blend
COMPONENT 1	BPC-157 — see bpc-157.md for full identification
COMPONENT 2	GHK-Cu (copper tripeptide-1) — see ghk-cu.md for full identification
COMPONENT 3	TB-500 (synthetic full-length Thymosin Beta-4, 43 residues) — see tb-500.md for full identification
COMPONENT 4	KPV (Lys-Pro-Val tripeptide) — see kp.md for full identification
BLEND MASS SPLIT	Typically 10 mg BPC-157 + 50 mg GHK-Cu + 10 mg TB-500 + 10 mg KPV per vial
TOTAL PEPTIDE MASS	80 mg per vial
SOURCE	Synthetic; components co-lyophilized after separate solid-phase synthesis (BPC-157, TB-500, KPV) and complexation (GHK-Cu)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized powder with a faint blue tint (from the GHK-Cu component)
PURITY SPECIFICATION	Each component >=99% by HPLC (confirm against batch COA)
CONTAINER	80 mg total per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 14-28 days in bacteriostatic water (limited by the least stable component)
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	TB-500 contains an oxidation-prone methionine. GHK-Cu can release copper at low pH or in the presence of strong chelators. Avoid repeated freeze-thaw cycles.

STRUCTURAL NOTES

KLOW co-formulates the three peptides of the GLOW blend (BPC-157, GHK-Cu, synthetic full-length TB-500) with the addition of KPV, a synthetic alpha-MSH-derived tripeptide. The four peptides are structurally unrelated and are physically co-lyophilized, not covalently linked.

SELECTED PEER-REVIEWED REFERENCES

See the individual component data sheets ([BPC-157](#), [GHK-Cu](#), [TB-500](#), [KPV](#)) for primary references on each peptide.
References are provided for research background only. Cited publications do not constitute claims about the safety, efficacy, or intended use of this product.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
