

PRODUCT DATA SHEET

GROWTH & GH AXIS

RESEARCH USE ONLY

GROWTH & GH AXIS

Sermorelin

Sermorelin – 10 mg per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

CHEMICAL NAME	Sermorelin (GHRH(1-29) amide)
SYNONYMS / ALIASES	Sermorelin acetate; GRF(1-29)-NH2; growth hormone-releasing factor (1-29)
CAS NUMBER	86168-78-7
MOLECULAR FORMULA	C149H246N44O42S
MOLECULAR WEIGHT	Approximately 3357.9 g/mol
AMINO ACID SEQUENCE	YDAIFTNSYRKVLGQLSARKLLQDIMSR-NH2 (29 residues; corresponds to the N-terminal 29 residues of native human GHRH; C-terminal amide)
SOURCE	Synthetic (solid-phase peptide synthesis)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized white to off-white powder
PURITY SPECIFICATION	>=99% by HPLC (confirm against batch COA)
CONTAINER	10 mg per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 7-14 days in bacteriostatic water
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	Contains a methionine residue susceptible to oxidation. Native GHRH(1-29) is rapidly cleaved by DPP-4 at the Ala2-Asp3 bond, giving sermorelin a short in vitro half-life. Avoid repeated freeze-thaw cycles.

SERMORELIN • DATA SHEET • V1

STRUCTURAL NOTES

Sermorelin is the synthetic peptide corresponding to the N-terminal 29 amino acids of native human growth-hormone-releasing hormone (hGHRH(1-44)), with a C-terminal amide. The 1-29 fragment retains the receptor-binding activity of the full-length parent. Unlike longer or modified GHRH analogs, sermorelin has no chemical modifications to extend its in vitro stability and is susceptible to dipeptidyl peptidase-4 (DPP-4) cleavage.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
