

LONGEVITY & ANTI-AGING

AHK-Cu

AHK-Cu – 100 mg per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

CHEMICAL NAME	Alanyl-L-histidyl-L-lysine copper(II) complex
SYNONYMS / ALIASES	AHK-Cu; copper tripeptide AHK
CAS NUMBER	[VERIFY WITH COA]
MOLECULAR FORMULA	[VERIFY WITH COA]
MOLECULAR WEIGHT	[VERIFY WITH COA]
AMINO ACID SEQUENCE	Ala-His-Lys (copper-complexed)
SOURCE	Synthetic (solid-phase peptide synthesis followed by Cu(II) complexation)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized white to off-white powder
PURITY SPECIFICATION	>=99% by HPLC (confirm against batch COA)
CONTAINER	100 mg per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 28 days in bacteriostatic water
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only); avoid strongly acidic solvents which may displace Cu(II)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	Avoid repeated freeze-thaw cycles. Cu(II) coordination is pH-dependent and can dissociate at low pH or in the presence of strong chelators.

STRUCTURAL NOTES

AHK-Cu is a copper-binding tripeptide (Ala-His-Lys) supplied as a copper(II) complex. It is structurally related to the copper tripeptide [[ghk-cu]], differing in the N-terminal residue (alanine in place of glycine). This entry provides a descriptive structural classification only.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
