

METABOLIC & GLP-1

Cagrilintide

Cagrilintide – 5 mg per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

CHEMICAL NAME	Cagrilintide
SYNONYMS / ALIASES	AM833; NNC0174-0833; long-acting amylin analog
CAS NUMBER	1949837-12-0
MOLECULAR FORMULA	C194H308N54O59 [VERIFY WITH COA]
MOLECULAR WEIGHT	~4438 g/mol [VERIFY WITH COA]
AMINO ACID SEQUENCE	37-residue amylin/calcitonin-family analog with an intramolecular Cys2-Cys7 disulfide bridge, C-terminal amide, and a Lys side-chain acylated with a C20 fatty diacid via a gamma-Glu-(2xOEG) linker [VERIFY WITH COA]
SOURCE	Synthetic (solid-phase peptide synthesis with side-chain acylation)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized white to off-white powder
PURITY SPECIFICATION	>=99% by HPLC (confirm against batch COA)
CONTAINER	5 mg per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 28 days in bacteriostatic water
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	Avoid repeated freeze-thaw cycles. Amylin-family peptides are amyloidogenic and prone to fibrillation - handle with minimal agitation and avoid prolonged room-temperature exposure in solution.
ALIGNEDAMINOS.COM	CAGRILINTIDE • DATA SHEET • V1

STRUCTURAL NOTES

Cagrilintide is a long-acting synthetic analog of the pancreatic hormone amylin (islet amyloid polypeptide), engineered within the calcitonin/amylin peptide family. The molecule retains the characteristic N-terminal disulfide loop of amylin and incorporates substitutions that reduce amyloidogenicity and confer dual amylin/calcitonin receptor activity. A fatty-diacid acylation provides reversible albumin binding for an extended circulating half-life.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
