

AESTHETICS & LIPOLYTICS

# Lipo-B

Lipo-B – 10 mL per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

|                     |                                         |
|---------------------|-----------------------------------------|
| CHEMICAL NAME       | Lipotropic combination solution (LC216) |
| SYNONYMS / ALIASES  | Lipo-B; LC216; MIC-B complex            |
| CAS NUMBER          | N/A (multi-component)                   |
| MOLECULAR FORMULA   | Multi-component solution                |
| MOLECULAR WEIGHT    | N/A (mixture)                           |
| AMINO ACID SEQUENCE | N/A (not a peptide)                     |
| SOURCE              | Synthetic                               |

PHYSICAL PROPERTIES

|                      |                                                                     |
|----------------------|---------------------------------------------------------------------|
| APPEARANCE           | Clear aqueous solution                                              |
| PURITY SPECIFICATION | >=99% by HPLC (confirm against batch COA)                           |
| CONTAINER            | 10 mL per vial, sealed glass vial, rubber-stoppered, aluminum crimp |

STORAGE & HANDLING

|                     |                                                                              |
|---------------------|------------------------------------------------------------------------------|
| SUPPLIED AS         | Ready-to-use solution (no reconstitution required)                           |
| STORAGE             | 2-8 C, protect from light; do not freeze                                     |
| SHELF LIFE (SEALED) | See batch COA / vial labeling                                                |
| STABILITY NOTES     | Do not freeze. Protect from light. Discard if cloudy or particulates appear. |

COMPOSITIONAL NOTES

Lipo-B is a compounded lipotropic solution; supplier-stated components per formulation: L-carnitine, L-arginine, methionine, inositol, choline, vitamin B6 (pyridoxine), vitamin B5 (dexpantenol), and vitamin B12 (methylcobalamin). Exact concentrations per batch COA [VERIFY WITH COA]. This entry provides a descriptive classification only.

SELECTED PEER-REVIEWED REFERENCES

Limited peer-reviewed literature is available for this compound; identity and characterization rely on the batch Certificate of Analysis.

- 1. [VERIFY WITH COA]

References are provided for research background only. Cited publications do not constitute claims about the safety, efficacy, or intended use of this product.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
