

METABOLIC & GLP-1

Mazdutide

Mazdutide – 5 mg per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

CHEMICAL NAME	Mazdutide
SYNONYMS / ALIASES	IBI362; LY3305677; OXM analog; GLP-1 / glucagon receptor dual agonist
CAS NUMBER	2259884-02-3 [VERIFY WITH COA]
MOLECULAR FORMULA	[VERIFY WITH COA]
MOLECULAR WEIGHT	~4800 g/mol [VERIFY WITH COA]
AMINO ACID SEQUENCE	Oxyntomodulin-based dual-agonist backbone with alpha-aminoisobutyric acid stabilization and a fatty-acid acylated lysine for albumin binding [VERIFY WITH COA]
SOURCE	Synthetic (solid-phase peptide synthesis with side-chain acylation)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized white to off-white powder
PURITY SPECIFICATION	>=99% by HPLC (confirm against batch COA)
CONTAINER	5 mg per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 28 days in bacteriostatic water
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	Avoid repeated freeze-thaw cycles. Acylated peptides aggregate at the air-water interface - handle with minimal agitation.

STRUCTURAL NOTES

Mazdutide is a synthetic peptide dual agonist of the glucagon-like peptide-1 (GLP-1) and glucagon receptors, structurally derived from the native gut hormone oxyntomodulin. The backbone incorporates non-natural amino acid substitutions (including alpha-aminoisobutyric acid) to resist dipeptidyl peptidase-4 cleavage, and a fatty-acid acyl modification on a lysine side chain to enable reversible albumin binding and a prolonged half-life.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
