

METABOLIC & GLP-1

Survodutide

Survodutide – 10 mg per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

CHEMICAL NAME	Survodutide
SYNONYMS / ALIASES	BI 456906; GLP-1 / glucagon receptor dual agonist
CAS NUMBER	2403841-72-7 [VERIFY WITH COA]
MOLECULAR FORMULA	[VERIFY WITH COA]
MOLECULAR WEIGHT	~5000 g/mol [VERIFY WITH COA]
AMINO ACID SEQUENCE	Glucagon/GLP-1 chimeric backbone with alpha-aminoisobutyric acid stabilization and a fatty-diacid acylated lysine for albumin binding [VERIFY WITH COA]
SOURCE	Synthetic (solid-phase peptide synthesis with side-chain acylation)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized white to off-white powder
PURITY SPECIFICATION	>=99% by HPLC (confirm against batch COA)
CONTAINER	10 mg per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 28 days in bacteriostatic water
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	Avoid repeated freeze-thaw cycles. Acylated peptides aggregate at the air-water interface - handle with minimal agitation.

STRUCTURAL NOTES

Survodutide is a synthetic peptide dual agonist of the glucagon and glucagon-like peptide-1 (GLP-1) receptors. Its sequence is a chimera of glucagon and GLP-1 backbones engineered with non-natural residues (including alpha-aminoisobutyric acid) for protease resistance and a fatty-diacid acyl modification on a lysine side chain enabling reversible albumin binding and an extended circulating half-life.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
