

GROWTH & GH AXIS

Tesamorelin + Ipamorelin

Tesamorelin + Ipamorelin (blend) – 18 mg per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

CHEMICAL NAME	Co-formulated blend: Tesamorelin + Ipamorelin
SYNONYMS / ALIASES	GHRH analog + ghrelin-mimetic secretagogue combination
CAS NUMBER	Tesamorelin 218949-48-5; Ipamorelin 170851-70-4
MOLECULAR FORMULA	Mixture (see component datasheets)
MOLECULAR WEIGHT	Mixture (see component datasheets)
AMINO ACID SEQUENCE	See individual component datasheets for [[tesamorelin]] and [[ipamorelin]]
SOURCE	Synthetic (two separately synthesized peptides co-formulated)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized white to off-white powder
PURITY SPECIFICATION	Each component >=99% by HPLC (confirm against batch COA)
CONTAINER	18 mg per vial total peptide content, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, stable approximately 14 days in bacteriostatic water
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	Avoid repeated freeze-thaw cycles. Component mass ratio is fixed at formulation; do not assume equimolar unless stated on the batch COA.

COMPOSITIONAL NOTES

This product is a fixed co-formulation of two separately synthesized growth-axis peptides that act through complementary mechanisms: tesamorelin, a stabilized analog of growth-hormone-releasing hormone (GHRH), and ipamorelin, a selective agonist of the ghrelin / growth hormone secretagogue receptor (GHS-R1a). The blend is supplied as a single lyophilized cake; the component mass ratio is defined at formulation and documented on the batch Certificate of Analysis. Refer to the individual [[tesamorelin]] and [[ipamorelin]] datasheets for full identity, sequence, and structural detail of each component.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
