

LONGEVITY & ANTI-AGING

# Thymalin

Thymalin – 10 mg per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

|                     |                                                                       |
|---------------------|-----------------------------------------------------------------------|
| CHEMICAL NAME       | Thymalin (thymic polypeptide fraction)                                |
| SYNONYMS / ALIASES  | thymic peptide bioregulator                                           |
| CAS NUMBER          | [VERIFY WITH COA]                                                     |
| MOLECULAR FORMULA   | Polypeptide fraction, not a single defined molecule [VERIFY WITH COA] |
| MOLECULAR WEIGHT    | Mixture [VERIFY WITH COA]                                             |
| AMINO ACID SEQUENCE | [VERIFY WITH COA]                                                     |
| SOURCE              | Synthetic                                                             |

PHYSICAL PROPERTIES

|                      |                                                                     |
|----------------------|---------------------------------------------------------------------|
| APPEARANCE           | Lyophilized white to off-white powder                               |
| PURITY SPECIFICATION | >=99% by HPLC (confirm against batch COA)                           |
| CONTAINER            | 10 mg per vial, sealed glass vial, rubber-stoppered, aluminum crimp |

STORAGE & HANDLING

|                                      |                                                             |
|--------------------------------------|-------------------------------------------------------------|
| UNRECONSTITUTED STORAGE              | -20 C, protect from light and moisture                      |
| RECONSTITUTED STORAGE                | 2-8 C, stable approximately 28 days in bacteriostatic water |
| SUGGESTED RECONSTITUTION SOLVENT     | Bacteriostatic water or sterile water (research use only)   |
| SHELF LIFE (UNRECONSTITUTED, SEALED) | 24 months at -20 C                                          |
| STABILITY NOTES                      | Avoid repeated freeze-thaw cycles.                          |

## STRUCTURAL NOTES

Thymalin is a preparation of low-molecular-weight polypeptides historically associated with thymic tissue and studied as an immune bioregulator. It is a polypeptide fraction rather than a single defined molecule; its composition is defined per batch COA. This entry provides a descriptive classification only.

## COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
