

COGNITION & MOOD

P21

P21 – 10 mg per vial – 10 vials per box

FOR RESEARCH USE ONLY (RUO). NOT FOR HUMAN OR VETERINARY USE.

IDENTIFICATION

CHEMICAL NAME	CNTF-derived neurogenic peptide, non-adamantylated variant
SYNONYMS / ALIASES	P21 (supplier designation "P21 without adamantane")
CAS NUMBER	Not assigned to this variant — confirm against batch COA
MOLECULAR FORMULA	Confirm against batch COA
MOLECULAR WEIGHT	Confirm against batch COA
AMINO ACID SEQUENCE	Core motif Asp-Gly-Gly-Leu (DGGL), corresponding to residues 148-151 of human ciliary neurotrophic factor. Exact terminal modifications of this non-adamantylated variant are supplier-specified — confirm against batch COA.
SOURCE	Synthetic (solid-phase peptide synthesis)

PHYSICAL PROPERTIES

APPEARANCE	Lyophilized white to off-white powder
PURITY SPECIFICATION	>=98% by HPLC (confirm against batch COA)
CONTAINER	10 mg per vial, sealed glass vial, rubber-stoppered, aluminum crimp

STORAGE & HANDLING

UNRECONSTITUTED STORAGE	-20 C, protect from light and moisture
RECONSTITUTED STORAGE	2-8 C, use within approximately 28 days
SUGGESTED RECONSTITUTION SOLVENT	Bacteriostatic water or sterile water (research use only)
SHELF LIFE (UNRECONSTITUTED, SEALED)	24 months at -20 C
STABILITY NOTES	Avoid repeated freeze-thaw cycles. Protect reconstituted solution from light.

STRUCTURAL NOTES

The peptide family originates from epitope mapping of human ciliary neurotrophic factor, which identified the DGGL motif at residues 148-151 as the active core. The compound characterised in the published literature is the adamantylated derivative P021 (listed separately). This item is the supplier's non-adamantylated variant; because the published work concerns the adamantylated form, the identity and molecular data for this variant should be taken from the lot COA rather than inferred from the literature.

COMPLIANCE DISCLAIMER

This product is sold by Aligned Aminos for laboratory research use only (RUO). It is not a drug, dietary supplement, food, cosmetic, or medical device. It has not been approved by the FDA for any therapeutic, diagnostic, or preventative use. It is not intended for use in humans or animals, and may not be administered, ingested, applied, or otherwise introduced into any living organism. Purchasers represent that they are qualified researchers or laboratory professionals and assume full responsibility for compliance with all applicable laws and institutional review requirements governing the handling of research chemicals.

Batch-specific identity and purity are documented in the Certificate of Analysis (COA) issued for the lot.
